Lt Hughes you told me family member could bring me study bible and daily devotional. My wife ordered them and Holy sprit study. I just wantf to let you know she will be dropping them off in the morning. If possible can you please try and get them to me before Eveyone is gone for the 4th. Also the daily devotional is soft leather just like the bible on commissary. I told them paper back but that's what Amazon delivered. Since the bible from tiger is the same type I hope and pray you will allow it.

Labs are not drawn per your request. Regardless of if you're sick or not, if you need to be seen by medical, you will need to drop a sick call to get on the list for assessment. If you didn't have an active prescription for the medication that you are requesting upon arrival to this facility, there is a process of assessing the situation/request to get orders from the facility provider.

Response by F. Nurse on 07/17/2024 at 3:34 PM

Medical does not have one request from you requesting anything. When you came to this facility, your medication was brought to this facility to be administered. Since you were already an active patient with medication orders for this medication, medical can't go through the same process as when someone that comes here and is not taking their medications. The medications that you provided ran out. Medical is not able to just order this medication as it is considered a specialty medication that cost THOUSANDS of dollars to order, as you should be aware of. Therefore, if your family is unable to get your medications filled and delivered to this facility, you will need to let medical know that ASAP. As you must be placed on the medication assistance program so that the medications can be ordered. The medication that you are now taking, was accepted yesterday. and you received it last night.

Per the pharmacist, crushing the medication will not alter the medication's effects in any way nor should it cause other health concerns. Therefore, your medications will be crushed as everyone else's are. If you develop symptoms, you can drop a sick call for further assessment by medical.

also if you google my meds it tells to not to crush, thatit will burn; also light expsoure makes the meds not effective. so this is rendering my life saving meds not effective due the mis handling that i have no control over. and wasting a 3300.00 pill. CAN WE PLEASE JUST MEDICAL ON THE SAME PAGE THEY ARE STILL SAYING THAT THE CAPTAIN IS MAKING THEM CURSH THE MEDS NO MATTER WHAT. but clearly that was not your responce. CO wood read this and also going to let medical know. once again thank you any help in this. and hate to make waves but this is a life saving med and can not be mis handled cause of a simple mis communication.

Response by F. Nurse on 07/26/2024 at 10:29 AM

If you are having complications/symptoms that require medical assessment, you will need to drop a sick call and state the symptoms that you are having for further assessment by medical.

Mr. Lynch,

I have spoken to our medical contractor, and they said the pharmacist and physician have both been consulted and it is their professional opinion that this is all in your head. Crushing and floating your medication has no effect on how your body absorbs them.

If you feel you need to file a 1983 action, well I guess you gotta do what you gotta do. You will need to write the US District court for the required forms.

why is no one listening to fact it makes me puke, thus i dont get my meds. floating is fine. i always took it and tossed the cup in front of the nurse and CO. why is no one understanding that it burns me. even my DR ar baptist health LR amada novack said its not be crushed. she said was calling up here. this is my 5th request and 4th grievance on this matter. i have reached out my my atty hurburt alaxander who advised me to ask for prisoner complaint but that has been granted yet either i have asked for that 3 times now. i'm not trying to bother, i'm not trying to break any rules.

but as BOP inmate who has signed for time i should be allowed to take my med without them being miss handeled. or given to me in why that harms me. or given in manner that renders it non effective. i been taking this for years and i know that dr had pharm have told me. i also know what that this info is on google if you look up the correct med. can someone please please please allw me to take me life saving meds correctly. I HAVE A WIFE AND 3 KIDS.
EVERY DAY THIS DONE TO ME YOU ARE TAKING DAYS OFF MY LIFE!!!!!!

YOUR MEDICAL STAFF HAS TOLD ME THEY KNOW THIS, THEY TOLD ME THAT THEY KNOW IT MUST BE TAKEN OR THE VIRI WILL RETURN AND RETURN STRONGER AMUNE TO THE MEDS..!!!!

THE MEDICAL STAFF IF FULLY AWARE OF THIS, YET THEY SAY THE CAPIT WHO HAS NO MEDICAL BACKGROUND IS TELLING THEM TOO!!!!

SO PLEASE LET ME TAKE ME MEDS CORRECTLY,

AND PLEASE ALLOW ME TO FILE A PRISONER COMPLAINT FOR THE MISS HANDELING OF MY LIFE SAVING MEDS....

why is no one listening to fact it makes me puke, thus i dont get my meds. floating is fine. i always took it and tossed the cup in front of the nurse and CO. why is no one understanding that it burns me. even my DR ar baptist health LR amada novack said its not be crushed. she said was calling up here. this is my 5th request and 4th grievance on this matter. i have reached out my my atty hurburt alaxander who advised me to ask for prisoner complaint but that has been granted yet either i have asked for that 3 times now. i'm not trying to bother, i'm not trying to break any rules. but as BOP inmate who has signed for time i should be allowed to take my med without them being miss handeled. or given to me in why that harms me. or given in manner that renders it non effective. i been taking this for years and i know that dr had pharm have told me. i also know what that this info is on google if you look up the correct med. can someone please please please allw me to take me life saving meds correctly. I HAVE A WIFE AND 3 KIDS.

the mis handling of my meds is causing negitave side effects. masive head ache, loose stool and unconrtrolled movements dark thou

the meds said this happends to notify a dr right away. so for 3 days now i have puked my meds up due to the mis handling; thus i have been denied adequate medical care. staff is deliberately indifferent to life serious of my medical needs. the wonton actions are[thurs 7-25 nurse katlynn @ 8:45 pm friday 7-26 nurse katlynn @ 8:40 pm sat 7-27 nurse heather @ 9:19 pm

Note by JASON LYNCH (651548) on 07/28/2024 at 6:37 PM

this is to log the actions and name the persons directly afecting my medical and life saving care. now that 4 days have passed with officals and medical staff deliberately indefferent to my saftey thus causing me harm. harm to my body with no'reguard to my life

the deliberate infifference to my saftey and adequate medical care under ECF No1, ECF No.4, ECF No 5, Title II of the ADA, 8th Amendment and now the 14th Amendment. Per the PLRA i have exhausted all administrative remedies in plea for help. only to have been show wonton lack of medical orders in place by the DR @ BHLR who is the head DR over infectious disease in the UNITED STATES. (who also called the jail and said they may be cut and floated if taken right then but may not be crushed) the disregard of this and deliberate & willfully disregard for my saftey and health moreover purposefully chosing to ignore my cry for help, my pain, request, and compaints. to deliberately disrguard dr orders already established, medical oaths & ethitcs that are now allowing my life to be harmed is sad tragic and gross negligence at the very least in provision of medial care

Note by JASON LYNCH (651548) on 07/28/2024 at 9:18 PM

named staff and officals are Head nurse Ashley who directed nurse Heather and Ashely to deliberately be indifferent to serious of life saving medical needs; to purposefully and willingly ignore my already established medical needs by outside Dr. directly resulting in my harm. the deprivation of adequate medical care and treatment was direct order from head nurse ashley at said request of capt edwards who has no medical background nor sufficient knowlege of my meds or medical needs. tonight again at 8:35pm nurse heather miss handeled my meds even after she stateded this was not the correct action for my medical needs. due the already generated actions and words i pray this can me resloved without futher haste or futher reprisal by locking me down or removing my access to freely contact my Dr, Atty, and family. its not my fault this is happening and i should not be moved or locked down cause i have been denied medical rights and wish to grieve that actions

2. Family an State Trooper and a Game warden spoke with my Law firm and confirmed this
3. tracking show it was signed for by staff here

i understand things happen and if was lost or misplaced 2 replacments were sent last week already USPS and are showing on mail tracker/guard. if these dont make it i can only assume its futher reprisal for the 1983. Co (s) are are refusing to accept my out going legal mail as well.. just adding to lot of PLRA, ADA, Federal and State Law Viloations and show futher reprisal as well..

what happend in the court also show futher reprisal. Mr Alaxender was not here cause he had trial in federal court all this week. but rest asured he will be picking up my jacket. its my understanding you already spoke with him so you do know he is on retainer, but what i dont understand is why yall are trying to harm me for just asking for my rights.. since asking for a 1983 there have been 5 clear retailations and the list is growing. i pray they stop. i'm model inmate and have great repour with almost all the COs. i dont fight, i dont do anything to break any of the rules. so why are you hating on me so much? Even in the light of the hate I Pray you have Blessed day and many Blessings in all you do..

Lt Ross you are clearly aware that they were not passed out last weekend. in fact durring my entire stay here thuss far no toe nail clippers habe been handed out and we are forced to rip the longated toe nails off causing pain and other inmates toes now seem to be infected. Moreover in my last Grievance there was request for them on monday due the fact non were given out over the weeked per policy at wcdc. you also replied "ok" to this request. Monday came and went and none were handed out..

Response by Lt. H. Ross on 08/14/2024 at 12:55 PM

I didn't tell you they would be passed out Monday. I am now aware that the nail clippers were not made available to use for yourself last week. However, that does not permit you to have an allowance to use them during the week. I will make the shift aware that it is priority for them to be passed out this weekend.

Appeal by the Inmate on 08/14/2024 at 2:20 PM

they were not only not made available to me, there were not made available any inmate in F pod last saturday or sunday. non what so ever handed to any of us in the POD even after requested over and over on both days. you and i both fully aware there many inmates who grived this matter. as i stated there are inmates who have ingrown nailes and were forced to rip them off. they were in pain doing so and voiced their disstress at the staff for not caring. this is how i am aware of the other grievances. its wilfully miss leading to imply that i was the only one not allowed or that any were given to us at all. given all the other matters, i pray its not the intent of "yourself" to do so. Is this futher reprisal for using the approved unit grievance system. I'm a model inmate. i dont fight, i respect all staff and treat them as i would my own mother. i dont break any of the rules. in fact i lead daily Bible Study , nightly prayer call. and help any inmate i can, even giving my own food or supplies away when its need. i'm not asking for any special treatment but i find myself being treated as if i'm hated. i dont understand why i would be at the end of any ill will or intent to harm or even futher reprisal.

Can we please get finger and toe nail clippers. as always thank you for time. its something we can never get back so any invested in my matters is recieved with gratitude.. habe a blessed day

Capt Edwards i did recieve legal mail on 8-/12..
however the mail on 8-12-24 was via USPS and from the federal court house in little rock. the prior grievance(s) is for missing legal mail from last wed. As stated it was from Alexander Law firm, via Fedex overnight /w tracking ending 8792 the legal mail you speak of has not been grieved or about. Thank you for looking into this matter and thank you in advance for ensuring the other incoming legal mail is correctly delivered'

Response by Captain C. Edwards on 08/15/2024 at 8:28 AM

The law firm should be able to check with Fedex to determine who signed for it.

Appeal by the Inmate on 08/15/2024 at 4:20 PM

front desk. they did not put a name, (Assume this is normal pratice)
but we have the time and date, i saw fedex bring in one packet that day at the same time.. the replacment arrived today as well can you please see it makes it..

also medical is refusing to give me required info for the 1983. i sent the actual 1983 form to medical via CO willborn and it has yet to return. it has other completed forms by other admin staff as well.. can you please find the time and be kind enough to check on this. i really dont want to have to restart all this paper work, and add another claim to it for futher bocking the 1983.. as always thank you very much for any and all you time invested in these matters and have a very Blessed day..

Note by JASON LYNCH (651548) on 08/16/2024 at 6:41 AM

im truly sorry to bother you with this again. however the replacment legal mail packet did not make it back here lastnight. the CO(s) stated there was none. Yet again tracking shows it was delivered at the front desk. surely 2 diffefent legal packets 1 week apart cant both get missplaced. Will you find the kindness in your heart to futher look into this.

2nd as i'm sure you are aware i have started a 1983 on the wonton actions of medical. Nurse F refused 3 times to provide me with her correct name via medical request. So i sent the actual 1983 form to medical Via a CO and she still refuses to give the correct name, spelling and/or the infomation required to complete the 1983. I'm quite sure a man of your stature is fully aware of the Law. would you be kind enouogh again to inform her this infomation can not be with held and to do so is futher federal law[& PLRA violation and can lead to entire new claim on or against medical. Please and thank you. and as always thank you for your time and help. Have a Blessed morning

Note by JASON LYNCH (651548) on 08/16/2024 at 9:07 AM

medical responed with clear wilful intent to futher block my 1983. and saying my actions were not inline with the rules. after reviewing inmate rules again i could not fine where her statment had any merit. how ever on here i did see a line that one matter only in each request/griev. do i need to make a new one for the 1983 on medical (away from the missing mail matter) or can you still look into both.. as always thank you and have bless day/morning.. PS i'm truely not trying to waste your time with all these but the issues with medical or TurnKey are grave concern and i just making sure everything fully on record and that i tired to get all the help i could and in the correct way.. please understand and i'm sorry its comming to this

Appeal response by Captain C. Edwards on 08/19/2024 at 1:42 PM

First, I have not seen nor heard of a mail packet being delivered to the front desk prior to the last packet coming in.

Second, The packet that came in last week was determined to NOT have came from your attorney's office by their own admission. They called back more than once to confirm that they DID NOT send the packet. That packet was placed in your personal property.

Finally, The information that you are seeking from medical you will get later in the process. You will need to file your 1983 with the US Courts with Jane Does listed for the nurses. I am sure your will get the accurate information in the discovery phase of the process.

Lt Ross in response to question about my out going legal mail 8-13 @ 11pm jones would not give receipt that accepted 7 outbound legal mail letters 8-13 @ 11:45 jones stated made Stg Siler aware and stated he would come but was not making a special trip 8-14 @ 1am inmate Rd cates spoke with Jones again and asked for shift Sgt to come to pod to get legal mail 8-14 @ 6:40 am Sgt Greer stated he would come get the outbound legal mail as of noon he still had not had time to see to this

Note by JASON LYNCH (651548) on 08/14/2024 at 2:47 PM

Greer stated he was busy and would return for it. i understand he is busy and i'm waiting. i seek no special treatment. i can clearly see he running like wild man handling other matters and pulling for court. i have asked him twice more only see he was winded and actually had a lot going on. i did want mail to go out today (as the parties are aware/ informed it would be sent out today. i dont want any of them assuming its been further blocked or lost. for this reason i have asked wilborn 4 times to remind other staff that had any free time to please pick up my out going and dated legal mail. i also stated this request to try and aid in admin staff knowing i have dated out going legal mail..

PLEASE NOTE IN NOW WAY DO ANY OF THE STAFF NAMED NEED TO REPRIMANDED, that is not my intend. i only want my legal mail to be sent and receipt of that action as well.. please dont even speak to in any way that would make them feel like i trying to do or say anything negative... i dont need any further reprisal and as stated i understand wcdc is understaffed and there are other matters they must tend to. as i have stated i have great rapport with most of the CO(s) and i dont want to harm that relationship...

i sent the 1st 2 pages of the legal 1983 form to medical to be completed. via CO m. willborn has already hand delivered it. i did mark the 4 locations i need filled out; its a federal law violation to not give the correct infomation or futher block the form with any futher actions that keep the form from being completed correctly. i pray its not your intent to do and that so and the form is returned to me today without haste.

also openly talking about my medical history to CO or non medical staff is a HIPPA violation, is it not?

this is just for the record. i have pointed this out to pill nurse and i need the capitan to know as well. every time my pill is crushed (which it can not be) over half the pill that cost thousands is being wasted and thrown away. CO body cams have actually been on the past few days. if you review the footage you see this is happening and i am pointing it out to nurse and guard. but geting told "what do expect, we are chrshing your pill" or "oh well" this has happend now over 30 times

Note by JASON LYNCH (651548) on 08/21/2024 at 9:08 PM

crushing the pill leaves OVER HALF THE PILL stuck to bag..

this happens everytim (see the body cam footage) and then even more in the cup. even if we keep adding water, it just sticks to cup... this has been done enough that damage cant be fixed and harm on my body is perment.. doing this over and over weakens the effect of the meds and allows the viri to become resistent to the only truely effect meds for treatment..medical staff knows this and i have told you this as well... the lack or care and the now willful intent to harm is over sad and wellming 36 complaints in over 70 days...

I also want on record that LPN katlynn smith said i was not taking my meds till i entered WCDC. this is an all out lie..

I have been on this med for years and my T4 count was 0 a few weeks before entering WCDC. Ms smith even said my chart that says just started taking this med, if it really says that. then my records have been altered since all this started. I have not had my medical intake but i know Jane Doe (the head nurse with long black hair) talked with me about the meds and the years i have been taking them, where i got them, who my doctor was. Stg roger is the one walked to medical, Co chisim was in there as well. along with Co Jones.. sadly none had body comes on.. also the only pharm in arkansas that carrys the meds in BHLR (med towers pharm) said no one has contacted them as yall have stated over and over and the put it writting the curshing this med is not correct way to take it. I also believe there is letter inbound from the board at BHLR about unrepairable damage yall are doing to my future life. lastley the nurse talking about my medical status with non medicsl staff is HIPPA violation...

Co phillips body cam on 8-19 and the footage on 8-20 from 1761 will show this true. NO OTHER CO HAD THE CAM ON THE I COULD NOTICE IN THE PAST 30 DAYS

this is my 36 complaint on this matter. also the same person that orginally answers my complaint is the same person that answers my appell. where is the "due Process"

as always thank you for time in reading this. I pray you realize that crushing my meds is wasting pills that COST THOUSANDS and is killing me.

As previously told, you can FYIA the information that you need upon your release. Medications are not prescribed or administered per your request. You will need to drop a sick call and state the symptoms that you are having for further assessment by medical.

Mr. Lynch,

I viewed the video, and the Doctor referred to a study that said they used orange juice however, each time he gave the nurse and order he said place it in water and let it dissolve, he did not say that you get to see them place it in the water. He did not say, dissolve your medication in orange juice. At one point he said, "or whatever y'all use" and we do not use orange juice, we use water.

Just for clarification, we crush and/or float all medications for safety and security purposes. I do not make medical decisions, that is up to our medical provider / contractor. I make safety and security decisions.

I assure you that you are not and will not be retaliated against for filing any lawsuits, that is your right.

(F-pod) did not get yard-call\scheduled recreation monday 8-26-2024. Staff assigned to F-pod denied the prescribed recreation stating that "F-pod asked for it to much" and that they were "personally annoyed". Recreation is supposed to be administered in accordance with the prescribed schedule and unit policy, and not according to any staff members personal feelings. This is simply retaliation by staff members for the multiple Grievances filed by inmates in this pod on staff behavior.

C edwards that video should be saved as all should. he did say do not crush it, you have told medical to do so. we both know there is no real penological intrest w/ this pill which justifies these state and federal violations. also no logicl person would drink something (with out seeing it) made by the person named in state & federal case, also named in torts claim as well. Phillips, chisim both did a great job and found a common ground that gave me my meds corectly. please allow them to do so

Note by JASON LYNCH (651548) on 08/29/2024 at 2:55 PM

this is med that coust thousands, to date your staff has thrown away or wasted 10 pills, and there are over 60 days of mis handling that have with out a doubt cause a toll on my future life. curshing leaves over have the pill in the bag. so the only full dose i have recived have been by the medical staff that know what this pill is and know what their oath was. lets please not make matters worse nor cause me futher harm. we both know there is clear case of intent to harm (i can only pray that you are not the one that the intent falls on or is coming from) every setep of the way i have correctly informed all staff of my meds and that is for and what missing it does to the virus and my future life. the feds will be here in few days to move me please just allow what the COs who care and myself worked out with medical. this is a pill i must take. its not being given to anyone else. there are plenty of studys that show crushing renders this not effective, my Dr has called and said do not crush, Mr alexander has called and said do not crush. your own provider said do not cursh. its also well within my right to see my live saving med given corectly. from the very start of this all i have been asking is not to cursh my life saving meds.. thank you for your time

how is it ok for a Co rogers to read my legal mail (the entire pod saw this) he and the LT stated its for security, how ever no morning haed count is done the next day.. how is ok to take the box the secures all my belongs in intrest of security but co swindel counts by looking in the window, or asking if there is any one new in the pod. the shake down on 8-30 at 2pm after 25 state office were contacted was clearly retelation for that and the entire pod using the grievance system

for the overwhelming fear of futher reprisal at the hands of guard staff i have been forced to stop using the unit approved grievance system. this is my last hope of anyone having the care of duty to protect us and our rights. your Co stated i would be moved to "k" pod. i have done nothing that breaks any rules but its clear staff does "what ever the hell they want" I spoke to Lt about this and workman and asked for body cam to be reviewed for misconduct and also saved. 5 shake dows in 5 weeks (no other pod has endured this) and nothing penological has ever been found

Was there really an email sent instructing COs not to sign a chain of custody for my outgoing legal mail? Per co woods "no one will sign and pick up my legal mail" I was even told this email was sent by LT. If you look at the hallway cams on 8.1@1945 on G & F you see inmates mail on the floor by the trash can. Until I asked guard how was that OK and they picked it up after others just waled past it. Its very reasonable to suspect my missing outgoing legal mail was done this way too.

Note by JASON LYNCH (651548) on 09/02/2024 at 1:24 PM

Federal law States my legal mail is protected. Do you not log my mail to be in accordance with this law? Its not unreasonable for the log to start the moment its handed off. Other COs and SGTs have had no issue with this request. Its Fair and simple and does not put a drain on the operations here. Stripes confirmed LT Ross sent an email with the directive not to sign for my outgoing legal mail. No doubt to keep me from attaining further proof my legal mail is intercepted and destroyed. Please save Sgt stripes body cam footage 8.4@ 1250 to 1330

Correction on the above the mail on the floor by the trash can was 8.3 Sunday night

Note by JASON LYNCH (651548) on 09/02/2024 at 1:30 PM

I would grieve this as valid legal complaint but I can't for fear of further reprisals.

Please just be reasonably aware of the right to have my legal mail protected and allow guard staff to sign simple chain of custody for outgoing legal mail ..

EMERGENCY APPEL TO THE SHERIFF

i have been placed on medical lock down at the directions of C edwards (who has no medical background). Lt hughes told me Edwards was ordering this due to my pill that medically can not be crushed. The past 4 days no nurse has crushed my meds and all has been fine. 2 days prior i was taken to medical to get my pill disolved in water (which ws not needed. i never asked to be taken to medical to take my pill. i'm only wanting my pill to be taken corectly

Note by JASON LYNCH (651548) on 09/03/2024 at 12:44 PM

. no other inmate on this med is placed on lock down. why am i? the past 4 days my pill has been given corectly and all hasbeen fine. why am i moved to medical lock down now. this is clearly reprisal for speaking up for my rights. my pill has no penological intrest. its has no phsyco active qualities. there is no just reason for this. the only logical reason is that this is reprisal. which i has put in grievances for, and said i was in fear that this ws going to happen. IF MY LIVE SAVING MEDS CAUSE ONLY ME TO BE PLACED.IN LOCK DOWN, I WILL STOP TAKING IT. i dont fight, i keep the pod clean, i lead bible study and prayer call.. you own staff have come to me and ask me to move other inmates into my cell so i could help watch over them. Sgt greer did this .. speak to him or co phillips or Sgt sliler or even woody.. i dont cause anything that warrents this or makes it ok. like i said the pill nurse has been giving me pill floated in water and i take it whole. moving me to medical to staff can dislove my pill that has zero security interest is nothing but reprisal. also since this is lockdown where is my due process. or how can i appell the capt. - ordering me on medical lock down. i already signed a medical release on this when all this 1st started. please come speak with me and let me explain everything thats been going on. i dont know if you know but 1983 and neg norts have been filed over medical and now the edwards seems to be making this personal and is taking actions that have no security intrest or medical interest. please. i'm willing to not even take me life saving meds to not be locked down. i have wife and 3 kids that i video every night, help with home work ect. removing that from me and access to the courts based on pill that has no penological intrest is just silly. all this is doing is proving the ill intent of edwards who has been so unbecoming. once again i'm begging to to intervine on this and come speak with me and read my log of everything thats been done

Note by JASON LYNCH (651548) on 09/03/2024 at 6:56 PM

Sheriff: once again please allow me to appeal this move to medical.

1. I'M NOT SICK, Nor hurting, nor need of any special attention. i neer said i was nor said anything like so.

2. no other inmates on the same meds are being locked down. (they may not have grived the crushing but they most likely did not know they could. i dont know just asuming due the edwards saying i'm th only one talking the crushing of my meds)

3. i called edwards a butt head and i said he had a big head. and that he did not have any duty of care, I'm sorry for these words but i dont feel like they warrent locking me down in medical over pill that has no security intrest. the fact he told me i want you to sue me and that he had to ask what pill i took and why i took it shows he had no info on my medcial needs or the pill. yet he ordered me locked down in medical saying i needed medical to watch me, saying that i'm sick. if he had to ask me what its for and what it is; how can say or order me to medical under th ruse that its needed for my well being. i fell like the fact that he knew nothing of the pill or why i take it only shows thats is clearly futher reprisal for using grievance system or the letter sent to the DOJ OIG. i pray you will look into this matter and see there is no real medical or security reason for locking me down. i pray you will speak with Sgt greer or phillips who can tell you i do all i can to help and dont cause any probs. please speak with me and let me speak on my behalf about this. i pray you will grant my appeal on the grounds there is no reason i belong in medical and the only reason im here is that mr edwards is allowing his personal feelings to effect his judgment. i pray you will help. and i pray what ever the outcome you speak with me about all the matters going on

Note by JASON LYNCH (651548) on 09/03/2024 at 7:16 PM

if you grant my appeal i will not enter any more grievances for the remainder of my stay at wcdc. I will accept how ever medical gives it me.
Sheriff please look into this and please allow me to speak on my behalf. or even allow your own guard staff to speak on my actions here.
once again this a appeal to the sheriff on no due process on being moved to medical when no just medical or even security reason exist.
thank you in advance for your time and help.

Note by JASON LYNCH (651548) on 09/03/2024 at 7:42 PM

in closing i want to add i'm even willing to stop taking my meds (the same meds other inmates take too) so tht i may not be locked down in medical. i honestly feel like this is mis use of medical. and the fact i'm offering to stop taking my meds if needed goes to how willing i am to abide by the rules.

Note by JASON LYNCH (651548) on 09/03/2024 at 8:19 PM

sheriff i just want to add that even after all this my pill was crushed and floated tonight. just as it would be if i was in the pod. i'm ok with this and i'm not greaving this action in any way. i'm only pointing this out to help show there is not just cause for this and me being here in medical nor is there a just security cause. the nurse even agreed with me that this is just silly; there is no need for this....

if anything this only helps show or prove what i have been saying that this and other actions are reprisal for using the unit approved grievances or my letter to DOJ OIG. or maybe the FOIA that mr.edwards told me i had to have done to get a copy of my request. Sir I do pray i'm not right, i truely hate to think a person over a jail with so many inmates would let his personal feelings in the way of doing the right thing but i can not for the life of me come up with any cause for this.
once again if you will please speak with greer, phillips, sgt woody even wilborn they will have nothing but good things to say about how i act here. even when speaking the Lts i make sure i am respectful. hardgrove, chism, martian any and all of them will tell you i speak with respect for the most part (yes i have been upset and called the capt. big headed or other words, and yes i'm sorry for that) but his personal feelings should not be in play on the operation of center as large as this

one. i think the only 2 people here that can say anything bad about me would be wood and mr edwards himself. (who till today has never spoke with me and even then i was respectful) Sir please i pray you grant my appeal on the ground a (its just not right for me to be locked down in medical, people make mistakes as i do and have done. please just understand whats really going on here and move me back to where i was. and i promise you there will not be one word said or typed from me again.

Note by JASON LYNCH (651548) on 09/05/2024 at 1:29 PM

Note by JASON LYNCH (651548) on 09/05/2024 at 7:27 PM

Sheriff nurse smith said she would dislove my pill in front of a guard.. Before she got to my pod... This works with me.. I decline any further medical needs nor do seek anything further. I'm willing to give some real security issues and how they have been circumventing your protocols and security staff. All hell broke Lose in medical and its full .. There is no real reason I should be here. I honestly feel like this due to me blowing the whistle to the DOJ OIG and my 1983 on medical..I pray its not and pray I'm mistaken . but even after offering the location of lighter tatoo needles papers and smoke ..cellphone or at least where if went.. And how its hid from y'all even how of got in and how its charged.. These are real security issues that have been set aside just to keep me in medical.. How is this just, right, or even OK.. I thought me being a federal bop committed prisoner that was whistle blowing you look into the matter and see to it the staff my claim is on that they would not have any further actions with me till the OIG completed its inquiry. The captain locking me down directly after the complaint .. Is silly.. And not right. I am in need of no medical care .. I did not seek medical care.. Medical and guard staff have And had a remedy that took no extra time or resource to complete

As previously explained to you, you are in medical to be monitored by medical staff for the symptoms you say you have. You requested to see your medication put in the medication cup and see it dissolve. You cannot be walked to medical for medication administration every time you get medications. Therefore, for your best interest, you are housed in medical. Also, as already explained to you, your pharmacy has been contacted and they report that you have 2 more prescription refills to pick up and that you have been paying \$4.70 for this medication to be filled. I will call them again tomorrow and see what has changed.

The provider ordered for your medication to be dissolved for 10 minutes prior to administration per your request. You stated that it tasted better and was easier to tolerate if it was dissolved in water instead of being crushed. You stated that you believed you were not getting the correct medication if the medication was not popped out in front of you. For medical to ensure that you are receiving the best possible care while incarcerated at our facility and to properly handle all of your medication requests adequately, you are housed in medical as this is in your best interest. Also, the last time that you were brought to be housed in medical was because you stated that crushing your medications was causing you nausea, vomiting, and diarrhea among multiple other symptoms that needed to be monitored and reported back to the provider. After being brought to medical, you signed a refusal stating that you were not having any of those symptoms and wished to not be monitored at that time.

Further releasing resources for medical and security..

also nurse smith dropped my pill befor entering my presence this is what her, siler and myself discused. this is totally ok thus there is not extra resource being use to admin my pill.. i pray you will move be back to f pod and i will be the perfect inmate from here on out. you not see or hear me name from anyone unless its staff telling you how quite i am or something of the sort. i will stop every request or grievance and will not file another.. . i will also surrender to your staff some real security conserns, how it happen, how its done, and how its hid. medical is mad house right now and they dont need me up here taking up extra space. i once again pray and beg you will speak with me and move me back to pop.. lastly the longer we wait the more smoke is consumed or sold, the lighter riskbeing sold when the smoke is gone. i'm sure you understand this and thank you for your time in advance

tonight medical (smith) already my pill disloved before even getting to me. this is ok as he did what her and i talked about just dropping the pill in front of one of the many outstanding guards herethat i trust. capitan said i was moved to medical cause i wanted to watch my pill be dropped and disloved thus stopping the pill nurse for 10 min (slowing her down) this is not the case. as tonigt shows she was with me maybe 15 seconds. for this reason pray and beg you will move me back to my pod

Note by JASON LYNCH (651548) on 09/05/2024 at 10:05 PM

i'm wiling to sign another medcial release, i do not wish to me montored by medical, i do not wish to see my pill dropped, i am not sick, medical is full and there is no need for me to be in here. medical staff even said this well agreed with me that this is silly. same for the guard staff. i'm also willing to use my own commassery to buy a lighter, smoke, tatoo needel and put in the hands of your staff. and also address the real security isuess of how it got in and how its hidden, i can tell you were the phone went as well. how it was charged and hid also. lastly if you move me back i will not fill out or send another request or grieve anything. you not hear or see my name unless its a guard telling you how much of outstanding prisoner i am. i once again pray you will make this happen
