I'm "pro se" so I do not know how to correctly ask/request this. So I pray the court will allow this and do the best in understanding in what I am asking for...

I'm asking the court to order white County Jail to surrender all my request, medical request, grievances, administrative appeals and responses, any and all footage, body cam footage, inmate records, and any thing of the like...

- In July I asked for this and was told I had no right to these..
- My family sent a FOIA asking for these, via USPS certified, signed for by "front desk" but WCDC refused to respond further...
- Clayton Edwards told me personally that no one will ever get these, therefore I fear he will dispose of them

IF he does dispose of these records, that most of my "hard proof" of all my claims will disappear..

For these reasons I pray the court will act accordingly in saving these records...

Respectfully I pray
its so ordered
