• Add on to Complaint •

This add on to my complaint is to further show my decompensation from the intentional interference with my on prescribed medical treatment, and the continued deprivation of my "life saving medication" at the direct order by Clayton Edwards, Ashley Watts and other medical staff who purposefully ignored all my medical request, and willfully failed to respond thus being intentful in gross negligence in the provision of medical care and treatment, and now my physical, tangible, residual injury & harm.

I've dealt with this virus for years. I've maintained my meds & treatment to be undetectable for years so much I've never had any symptoms or ANY signs of having HIV. But now after 3 prolonged mos of having no meds, half does, or mis handling of my meds the signs and symptoms are so overwhelming I fear the virus is now immune to

the "best medication on the market".

I'm now sick.. I feel like I have ^{the} worst flu I've ever had. Daily and all day long head & body aches. My cuts do not heal, My Body is breaking out. At night I sweat so bad my clothes are wet when I wake. I'm sore and can't move well. I have no energy. Sadly I seem to be only getting worse..

* I Begged Edwards, I told him what would happen to me. His response in writing to me was "It's all in my head" and "I don't need my meds daily" I Begged him & medical for my meds correctly... Even after their own Dr said do not crush, they did up till the day I left WCDC. They would crush em, (leaving over half of my pill in Bag) then dislodge it...
