• ADDENDUM to Complaint •

On 8-13-24 in State court in 17th Dist Div 2 (Mark Ark). I was called at 9:00 am and my wife was not called upon till 8:30 pm. Even though she never left the court room, even though both recess and lunch, she filled out 4 slips notifying the court she was there. She even told her name. I was back in my pod "F" starting to get upset, when one of the "good guards" told me this was by design to get me upset in hopes I would act out and get a new charge to help harm my 1983. My wife even heard court staff speak of the same. Other inmates were called by Pods starting with Pod A... However per Co Martion he was told to pull me 1st. I believe this proves the reach of Clayton Edwards and the Jail into the courts; Even at his request the court still had to allow this unjust action. Again Court Staff & Guards said this was done by design and request.

Now with 4 different request in writing for General Discovery information, Brady Docs. Giglio information, request for motion(s) to

RE: 4-24-CV-740-LPR-BBM 9.17.24

Surpress, and request for motions for change of venue. Along with reasons why or the over welling reasons supporting the request have all "fell upon Deaf ears". I can not under stand how or why a Prosecutor and/or a State Funded public Defender would not respond to such normal request, moreover a different request in writing. Why would licesand Attorney and Prosecutor not follow crim. P of law or court rules. I can only assume its by the request of Jail Admin staff. The legal mail log of my outgoing mail will show that I wrote both Tony Basswell and the State Prosecutor's office. I've also enclosed a copy of letter I sent to both on 8-15-24. I've requested this ADDENDUM of my 1983 complaint to further show/prove just how bad ^{the} corruption at WDC is. And now to further support my 1983 and change of venue of my state crim case.

Once again I pray the court will demand WDC copy and submit all inmate records, health records, photos of dates and times listed in complaint, along with any and all information the jail has.

Respectfully Jason M Lynch

• ADDENDUM TO COMPLAINT •

••• The Reach into the court room ••

I want to add in that I personally saw the Sheriff come into the court room. Approach the prosecutors and ask about me (Both prosecutors looked at me when/while he was talking) Camera footage will back this up. I was in the Jury Box. I could not make everything that was said due to them holding up a folder to cover the mouth; when they saw me listening.

- I clearly heard him ask and speak •
- of my wife Kirsten and myself •

- To date the PD and Prosecutor have •
- yet to respond to my request of •
- discovery/Brady/Giglio information •

- without a doubt this is caused I filed •
- 1983 and its rather reprisal, I do believe •
- WCOE staff and new courts act however •
- they wish or want, with no respect to •
- law Grim. P. or Court rules •
